EXTRAMURALLY-FUNDED RESEARCH

Active

1R01 MH095748-01 (Wilfley, PI) National Institute of Mental Health
"Implementation of Evidence-Based Treatments for On-Campus Eating Disorders"
4/5/2012 – 9/30/2019 Role: Co-investigator

This project compared therapist fidelity to Interpersonal Therapy for two implementation strategies deployed in on-campus counseling centers for persons with eating disorders. One of the aims of this study is to assess implementation and service costs of such therapist-focused training, and to undertake an economic evaluation of these two implementation strategies.

1R01 HS02600-01A1 (Crystal, PI) Agency for Healthcare Research and Quality
"Advancing patient safety for antipsychotic-treated children: Examining state implementation of safe use practices"
9/30/2018 - 7/31/2023 Role: Co-investigator

This study uses a mixed-methods strategy to identify and document state implementation of safe-use initiatives focused on use of antipsychotic medications, assess their impact on safety

of antipsychotic use, and disseminate results to state decisionmakers, health plans, clinical communities, and other stakeholders.

Completed

1 R03 HS013611-01 (Raghavan, PI) Agency for Healthcare Research and Quality
“Health Policies and Pathways to Mental Health Services for Children in Child Welfare”
9/30/2002 – 11/15/2003 \$29,995 (direct)

This study merged three sources of data to create a multilevel dataset of children in the child welfare system along with county-level health policy and health resources data. It then examined the effects of Medicaid policies (managed care penetration, use of behavioral carve-outs, and variations in provider reimbursement) on access to ambulatory mental health services among children in the child welfare system.

90PH0013 (Raghavan, PI) DHHS, Administration on Children and Families
“Assuring the Emotional Well-Being of Children in Child Welfare Environments through Stable Health Insurance Coverage”
9/30/2006 - 2/29/2008 \$99,770 (capped total costs)

This study undertook longitudinal data analysis on a national probability sample of children in the child welfare system to examine patterns of their health insurance coverage over time, the effects of health financing policies on insurance stability, and the consequences of insurance instability on the use of ambulatory and inpatient mental health services.

P30 MH068579 (Proctor, PI) National Institute of Mental Health
“Sequenced Trauma-Focused Intervention for Children in Residential Care: An Implementation Demonstration Pilot”
2/20/2007 - 7/31/2009 Role: Pilot study PI

This pilot was designed to test the feasibility of implementing psychological interventions for children exposed to trauma currently living in residential care facilities. It was conducted at Every Child’s Hope, a residential facility in St. Louis, and developed approaches to estimate the costs of implementation for these interventions.

5 R03 MH082117-01 (Raghavan, PI) National Institute of Mental Health
“Securing Mental Health Services Consistent with National Standards for Children in Child Welfare”
12/1/2007 - 2/28/2010 \$100,000 (direct)

This study identified the characteristics of Medicaid-enrolled children coming into contact with child welfare agencies nationwide who are at most risk for not receiving care consistent with national standards, identified Medicaid coverage deficits that place beneficiaries at risk for poor quality of care, and examined county-level Medicaid policies positively associated with receipt of care consistent with national standards.

1 R01MH086489-01 (Shattuck, PI) National Institute of Mental Health
“Service Transitions Among Youth with Autism Spectrum Disorders”
9/1/2009 – 8/31/2014 Role: Co-Investigator

This study used nationally representative data of children with autism spectrum disorders in special education school districts to examine service disruptions once these children leave the school system. One of the aims of this study was to examine health insurance discontinuities among these children.

1 R01 HS018550-01A1 (Rubin, PI) Agency for Healthcare Research and Quality
"Comparative Safety of Atypical Antipsychotics in High-Risk US Children with ADHD"
9/1/2010 – 8/31/2013 Role: Co-Investigator
This study examines pharmaceutical use data from Medicaid claims of a national sample of children with attention-deficit hyperactivity disorder. One of the study's goals is to examine the economics of pharmaceuticals with respect to implementation of practice guidelines.

HHSN271201200644P (Raghavan, PI) National Institute of Mental Health
9/17/2012 – 1/31/2013 \$14,900 (total)
Contract to identify data sets and analyses suitable for research on disparities in mental health.

1 R01 MH084855-01A1 (Proctor; Glisson, PI) National Institute of Mental Health
"Testing an Organizational Implementation Strategy in Children's Mental Health."
8/1/2009 – 5/1/2013 Role: Co-Investigator
This study examines the use of the ARC implementation strategy to deliver mental health services to underserved populations in the greater St. Louis area. One of the study's goals is to conduct economic evaluations of this implementation strategy.

5T32 MH019960 (Raghavan, PI) National Institute of Mental Health
"George Warren Brown Mental Health Services Research Training"
7/1/2010 – 6/30/2015 \$2,534,098 (direct)
This institutional award supports the training of two predoctoral students and one postdoctoral scholar each year in mental health services research.

1 R01 HS020269-01 (Raghavan, PI) Agency for Healthcare Research and Quality
"Strengthening Medicaid-Funded Mental Health Coverage for Children in Child Welfare"
9/30/2011 – 9/29/2015 \$541,984 (direct)
This study proposes to develop better ways to predict mental health expenditures for children with histories of maltreatment who are current Medicaid beneficiaries. It relies on a unique data source, obtained after linking a national survey of maltreated children to their Medicaid claims in 36 states nationwide.

1 R01 MH092312-01A1 (Raghavan, PI) National Institute of Mental Health
"Reducing Disparities in Mental Health Expenditures among Children in Child Welfare"
5/16/2011 – 9/31/2015 \$625,000 (direct)
This study examines racial/ethnic disparities in Medicaid-funded mental health expenditures among maltreated children, and attempts to identify Medicaid policies that may inadvertently contribute to such expenditure disparities. It proposes to link a national survey of maltreated children to their Medicaid claims in 36 states nationwide.

5T32 MH019960 (Proctor, PI) National Institute of Mental Health
"George Warren Brown Mental Health Services Research Training"
7/1/2015 – 6/30/2019 \$2,777,498 (direct)
This institutional award supports the training of two predoctoral students and two postdoctoral scholars each year in mental health services research.
