NYU Silver School of Social Work is recognized by the New York State Education Department’s State Board for Social Work as an approved provider of continuing education for licensed social workers. Provider #0012

Program Director
Martha A. Gabriel, PhD, MSW
Program Description

The certificate program provides a theoretical and practical understanding of the clinical supervision process based on case presentations and relevant readings. The program integrates theory with supervisory practice skills, and courses assist supervisors to develop and expand their theoretical knowledge.

Program participants will

- Increase their understanding of diverse theories as applied to supervision
- Better understand the dynamics of the supervisory process, methods of providing clinical supervision, and approaches to addressing and resolving conflicts.
- Enhance skills in providing clinical supervision through a case study model.
- Interact with peers to examine supervisory dilemmas and ethical considerations
- Examine problems in the supervisory relationship

Does this program meet the specialized training component for certification as a clinical supervisor under the auspices of the National Board for Certified Counselors?

Yes. For details, visit www.cce-global.org.

How long will it take me to complete the certificate?

Two semesters. Each class meets every other week for 10 two-hour sessions, unless otherwise noted. Regular class attendance is required to obtain your certificate.

How many continuing education credits (CEs) will I earn?

40 CEs

Where can I find more information?

For program requirements, dates, times, and other detailed information, go to http://goo.gl/aGA7ni or contact silver.continuingeducation@nyu.edu.

Who should attend?

Supervisors with an advanced degree in social work, behavioral health, or related counseling fields who have been in the field for three years are eligible for the clinical supervision certificate program.

Course of Study

FALL/SPRING

Contemporary Issues in Clinical Supervision

This seminar focuses on topics in supervision theory and practice.

Topics include

- Changing trends in supervision, including: psychodynamic, relational, group, and resilience-based supervision
- Establishing and maintaining the supervisory alliance and resolving supervisor/supervisee conflicts
- Parallel process, transference and countertransference, and the role of self-disclosure
- Clinical and administrative supervision: balancing the two roles
- Ethical considerations in supervision including boundary crossings, violations and questionable behaviors
- Differentiating burnout from compassion fatigue: organizational and supervisory responses and preventive interventions
- Supervising volunteers, case managers, and peer counselors
- Understanding of and working with diversity factors: privilege, oppression, diversity and resilience
- Helping supervisees connect practice theories to the intervention process and evaluate their practice

FORMAT

Practice Seminar

Participants will have the opportunity to lead selected seminar classes. Classes will utilize process materials. Relevant readings will be integrated into seminar discussions and supervisory presentations. The seminar format provides participants the opportunity for professional growth and development within the context of a safe, constructive, and supportive environment.

About the Faculty

The faculty brings a combination of extensive practice experience with clinical supervision in varied health, mental health, government, school, and agency settings, as well as experience in academic teaching.
