PROJECT TITLE (limit to 100 characters):

REQUESTED AMOUNT (should match budget total):

\$ _____

CATEGORY OF FUNDING BEING SOUGHT:

- Category 1:** Proposals which require start-up funds and have a high probability of eventual funding from external agencies
- Category 2:** Proposals from disciplines where the expectation of additional external support may be limited

SUBJECTS:

Animals? Yes No If yes, Protocol Approved Protocol Pending
Humans? Yes No If yes, Protocol Approved Protocol Pending

PI (full name): _____

2.0 ABSTRACT and PROJECT STATEMENT (1 page)

Abstract: Answer some or all of the following questions:

- What is the goal of the project (what are intended accomplishments)?
- What are the project objectives (what is the desired outcome(s))?
- How will the project impact the field of global public health?
- How will the project support the PI/Co-PI's research or that of others?

Project Statement:

- How does this proposal relate to the interests of the GPHCF?
- Once the research is completed, how will the results be used?
- What are the plans, if any, for seeking external support?
- If the project has been funded by an external sponsor, please be very clear why GPHCF support is needed to advance the research.

PI (full name): _____

3.0 PROJECT DESCRIPTION (3 page limit)

Provide answers to some or all of the following questions:

- What are the project's scope, size, and components?
- What methodology will you employ?
- What is the project's duration and timeline?
- How will the project contribute to the state of knowledge in the field of global public health?
- How might the project benefit from and affect the research of colleagues at NYU or outside NYU?
