APPLICATION MATERIAL GUIDELINES

TRANSCRIPTS:

1. We require transcripts from all colleges or universities where you earned 12 or more credits (including the institution where you are in the process of earning your Bachelor's degree).
2. You will be required to upload an unofficial electronic copy of your transcript into the online application system. This can either be a copy issued to you from your academic institution or a copy in your possession.
3. We are unable to make admission decisions without your uploaded transcripts.
4. We do not need your official transcripts in order to apply to the program. If you are admitted, you will be required to submit an official transcript. More information about this process will be given after the point of admission.

LETTERS OF RECOMMENDATION:

1. You will need to select three recommenders and have them agree to write letters on your behalf. All programs require three letters of recommendation except for the Non-Matriculating option which requires one letter of recommendation.
2. These individuals should be able to speak to your abilities as a future social worker and should be able to evaluate your potential for graduate school education (e.g: employers, supervisors, and college professors).
3. Letters of recommendation should not be personal references. Your letters should be from professional academic references. With this mind, we discourage letters from friends, relatives, neighbors, therapists, or doctors. If you have recently graduated or are about to graduate, reach out to professors. If you have worked, ask your supervisor. We want letters that can speak to your performance and why you would make a great addition to the field of social work.
4. When you enter a recommender's name into the online application system, they will automatically be notified of your recommendation request. The recommenders will receive an e-mail prompting them to complete a questionnaire and upload a letter of recommendation online. Be sure to inform them of the submission deadline, as we are unable to review applications without the required number of recommendation letters.
5. You should visit your online application regularly to monitor completion of this important part of your application. It is a good idea to have backup recommenders.
6. If your application deadline is in early January, we strongly advise you to urge your recommenders to upload their letters in December.
7. The system will accept letters after you submit your application; however, letters submitted after the application deadline will greatly delay the processing of your application.

FINANCIAL AID:

1. If you are seeking financial aid you should indicate this in your online application where asked.
2. All students, including international students, will be considered for merit-based scholarship (Silver-based awards). Please be sure to indicate that you wish to be considered for scholarship where asked.
3. U.S. students are asked to file the FAFSA (Free Application for Federal Student Aid). Failure to do so may adversely affect the timing and/or the issuance of the financial aid package/report sent by the NYU Office of Financial Aid to accepted applicants.
4. Accepted international students are not eligible for funding from federal sources. Consequently, they cannot file the FAFSA. International students are expected to seek aid and loans from alternative sources.
5. Requesting consideration for aid has no bearing on the admission decision.
